

**TOWN OF MACKLIN
SCHEDULE "B"
TO BYLAW NO. 01/17**

Quarterly Sewer Service Charge

1. Definitions

- a) **Residential Unit** – is defined as a dwelling unit for human habitation.
 - i) Single family dwelling (one unit)
 - ii) Multi-family dwellings per dwelling unit
 - iii) Apartments per dwelling unit
 - iv) Condominiums per condo unit
- b) **Commercial Unit** – is defined as a space available for an individual business to operate either separately or within a building being occupied by any number of businesses.
 - i) Each business operating in a multi-business facility shall be considered an individual commercial unit providing the space is physically separated from the other units by permanent walls.
- c) **Hotel/Motel Unit** – is defined as a rentable room.
- d) **Hospital/Long Term Care Unit** – is defined as the bed allocation for the treatment of human health needs.

2. Minimum Charges

- a) For all residential, commercial, hotel/motel and Hospital/Long Term Care facilities there shall be a minimum charge of \$60.00 per unit to a maximum of two units; and
- b) For all residential and commercial units a minimum charge of \$12.00 per unit for every unit after two units; and
- c) For all hotel/motels a minimum charge of \$9.00 per unit for every unit after two units; and
- d) For all Hospital/Long Term Care facilities a minimum charge of \$6.00 per unit for every unit after two units; and
- e) For all trailer and/or non-metered units a minimum charge of \$60 per unit.

3. Consumption Charges

- a) A charge of \$0.04 for every ten gallons of water used to be added to the minimum charges as applied.
- b) For all trailer and/or non-metered units the rate shall be a flat charge of \$32.00 for water consumption.
(8,000 gallons @ \$0.04 per ten gallons = \$32.00 an average residential property)
